

I think its wrong to air something like this, this close to election about John Kerry's war record. Is there not any honor in America anymore. My goodness he fought in the Vietnam War what is wrong in coming back as a Civillian and speaking your mind. The last thing I heard we still had freedom of speech. But I'm worried about that now it sounds like one side is only allowed to make that knowed. and you the FCC are suppose to be fair to all the people. So please be fair to the people of our great nation America. Thank you
